

PLAY

The PERFORMANCE tutor for the MUSIC 5000

PLAY is the tutor for the MUSIC 5000 which takes MUSIC as it's starting point. It explains in simple, clear terms how to achieve quality musical performances from your system.

Practical step-by-step tutorials are used throughout to ensure understanding of the topics covered. These include:-

Mixes, Effects, Dynamics,
Timing, Arrangement etc.

There is a beginners section specifically tailored to the needs of new users. Once this section has been mastered, the user may then move on logically to the rest of the tutor.

An associated disc containing extensive demonstrations, music and utilities is supplied with PLAY to simplify understanding of each topic.

If you need practical help to get more from your MUSIC 5000 this could be the book to help you.

The tutor is available either as a book, or as a set of text files on disc.

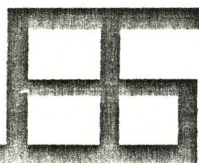

The disc version is suitable for loading into a wordprocessor or, using a utility program on the disc, the files may be sent directly to a printer.

Prices - £11.95 inc. for the disc version

£15.95 inc. for the book

5.25" DFS only, please state 40T/80T with order.
